Aerobic Floor 'ULM'

Official Aerobic Floor

*at the European Championships 2007 Szombathely (HUN)
and the World Championships 2008 Ulm (GER)*

- FIG certified Floor for high level competition.
- Innovative construction guarantees the equal elasticity in every point of surface offering the right combination between abrasion and slide.
- Construction of 12 x 12 m consisting of 64 multi-layer high pressure glued wooden plates with a top layer developed especially for Aerobics.
- The basic plates (each 150 x 150 cm and 7.5 cm high) with spring elements are connected by means of flexible strips made of reinforced polypropylene and are kept together by tension straps. The demarcation tape is included.
- Outstanding dynamics and attractive design.
- Developed in close cooperation with top gymnasts from the Aerobic sports community.
